I'm a graduating Computer Science student (expected June 2026) and a career shifter with hands-on experience in both hardware and software. I'm looking for an opportunity to apply my skills in full-stack web development, data analytics, and mobile technologies while contributing to a high-performing team.

Key Highlights

- Strong foundation in web development with hands-on experience in Laravel (PHP), Vue.js, JavaScript, and MySQL.
- Proven ability to build full-stack web applications with clean architecture and user-focused, responsive design.
- Skilled in developing scalable systems, RESTful APIs, and efficient database management.
- Fast learner with strong problem-solving skills, adaptable to new technologies and frameworks.
- Demonstrated leadership as a Class Representative and as a Subleader in a professional environment.

TECHNICAL PROFILE

Languages: Java, JavaScript, Python, C#, PHP
Databases: MySQL, Firebase, XAMPP
Data Science & Big Data Analytics: Pandas, Numpy, Matplotlib, Jupyter
CI/CD: Git, Github
Web Development: HTML, CSS, Firebase, ReactJS, Flask, Laravel, Vue
Mobile Development: Android Studio, XML, Java
Hosting Platforms: Render, GitHub Pages, Cloudinary, Vercel, Railway
Productivity: MS Word, Excel, Microsoft Teams, Discord, Tango, Slack

SOFT SKILLS

- Team Collaboration
- Problem Solving
- Critical Thinking
- Leadership
- Stress Management
- Attention to Detail
- Communication Skills

WORK EXPERIENCE

Pre-CS Technical Experience (2015 – 2022)
Machine | Line | Assembly Technician – HOYA Electronics, Harada Industries, JAE Philippines
General Trias & Dasmariñas, Cavite

- Gained over 5 years of hands-on experience in the manufacturing and electronics industries.
- Performed assembly, calibration, troubleshooting, and maintenance of mechanical and electrical systems.
- Followed and authored technical manuals and TMI instructions to maintain quality and safety standards.
- Collaborated with cross-functional teams to improve operational efficiency and reduce production downtime.
- Developed precision, discipline, and technical communication skills—now applied to software engineering and problem-solving in tech.

On-the-Job Training (300 Hours) – January 2026 – March 2026
Quality Assurance & Web Development | WhiteStrings | 597 Jenny's Avenue, Maybunga, Pasig City, Metro Manila, Philippines

- Completed 300 hours of On-the-Job Training (OJT) focused on Quality Assurance and Web Development.
- Assisted in testing web applications, identifying bugs, and documenting issues to improve system stability and performance.
- Participated in backend development using Laravel (PHP) and supported feature implementation for internal web systems.
- Performed debugging and basic code reviews to ensure application reliability and maintainability.
- Used Git and GitHub for version control and collaborative development workflows.
- Attended technical training sessions on Laravel framework, PHP development, and web application architecture.
- Worked with developers and QA members to improve testing processes and deployment quality.

EDUCATION

STI COLLEGE DASMARINAS Cavite, PH
Bachelor of Science in Computer Science Expected Jun 2026
Cumulative GWA: **1.21** (on a 1.0-5.0 scale)
Programming Coursework: Software Engineering; Operating Systems; Data Structures and Algorithms; Computer Architecture and Organization

TRAININGS AND CERTIFICATIONS

JAVA FUNDAMENTALS COURSE COMPLETE June 24, 2023
Oracle Academy

• Completed foundational coursework in **Java programming** including object-oriented principles, control structures, and data types.
• Gained hands-on experience in developing Java applications under guided instruction.
• Awarded Certificate of Completion for satisfactory performance in all course requirements.

PYTHON BASIC ACCOMPLISHMENT June 13, 2025

HackerRank

• Successfully completed foundational coursework in **Python programming**, covering control structures, data types, functions, and object-oriented concepts.
• Acquired hands-on experience by building Python programs through guided exercises and challenges.
• Earned a **Certificate of Completion** for meeting all course requirements with satisfactory performance.

ICS DAY SEMINAR November 18, 2025

STI College Dasmariñas

- Certificate of Participation in the ICS Day Seminar with the theme: "Cyber Guardians: Empowering Today's Defenders, Securing Tomorrow's Digital Nation"
- Participated in discussions on cybersecurity, digital defense strategies, and emerging security technologies

CODEFEST – STI College

• Local 2nd Runner-Up	2023
• Local Champion	2024
• Cluster Level Participant	2024
• Local Champion	2025
• Cluster Level 2nd Runner-Up	2025

13TH IT SKILLS OLYMPICS – UNIVERSITY OF MAKATI November 22, 2024

• Certificate of Participation in Android Development (Productivity)
• Event Theme: "Augmenting Security Towards the Techno-Utopia"
• Participated under STI College Dasmariñas

TOPCIT LEVEL 2 November 20, 2024

• Successfully participated and qualified for the Test of Practical Competency in IT (TOPCIT) – Level 2

MAJOR PROJECTS

All my personal projects are published on my GitHub profile.

QUIZTON: AI-POWERED QUIZ GENERATOR (THESIS)

- Developed a web-based platform for St. Jude College Dasmariñas that generates quizzes from lecture PDFs with the use of NLP (Natural Language Processing).
- Supports admin and teacher roles, question bank management, and exportable quizzes.
- Supports admin and teacher lecture management.

INSTAQUIZ: FILE INTO QUIZ WEB APPLICATION

- Developed a web app that automatically converts uploaded PDF lecture files into quizzes for students.
- Implemented quiz sharing, question extraction via NLP, and user-friendly UI for academic use.

SHAPESHIFT: GYM CHALLENGE APP

- Fitness application that calculate your BMI then recommend suitable program for the user.
- Created a fitness application with challenge modes and progress tracking.
- Integrated workout recommendations and goal tracking for enhanced user motivation.

MEMORY LANE: SMART PHOTO ORGANIZER

- Built a mobile app that saves, organizes, and categorizes user photos by event and emotion.
- Integrated features like timeline view and smart photo tagging.

NOTEFLASH AI: IMAGE TO FLASHCARD CONVERTER

- Engineered an app that extracts text from handwritten or printed notes using OCR then convert to deck.
- Converts content into flashcards with adaptive learning based on user performance.

MINI PROJECTS

SHARESKILLS: PEER LEARNING PLATFORM

- Designed a mobile platform where users can offer or request skills via scheduled sessions.
- Included chat, ratings, and in-app booking system for smooth coordination.

RESERVATION MOBILE APP

- Created a mobile app for managing bookings and reservations in real-time.
- Features calendar syncing, status tracking, and admin approval tools.

GO-TRADE: BUY AND SELL APP

- Developed a mobile app in C# for selling and buying secondhand goods.
- Included features like product listings, in-app messaging, and secure login system.

SOLVE 4: PUZZLE GAME

- Developed a Unity-based puzzle game requiring logical problem-solving skills.
- Implemented a scoring system, level progression, and polished UI.

EDELSTEIN LABYRINTH: 2D FANTASY MAZE GAME

- Built a 2D RPG-style Unity game with maze exploration and combat mechanics.
- Designed original sprites, levels, and narrative elements.

TRACKWISE: EXPENSE AND INCOME TRACKER (LARAVEL & VUE)

- Developed a web-based expense and income tracking application using **Laravel (PHP)** and **Vue.js**.
- Implemented features for recording transactions, categorizing expenses, and generating financial summaries for users.

INVENTORY-APP: INVENTORY MANAGEMENT SYSTEM (LARAVEL & VUE)

- Developed a full-stack inventory management system using Laravel (PHP), Vue.js, and Axios.
- Implemented product tracking, stock management, and real-time updates with a clean and responsive UI.

BLOG-APP: DYNAMIC BLOGGING PLATFORM (LARAVEL & VUE)

- Built a modern blogging platform with content creation, editing, and user interaction features.
- Designed responsive UI and optimized data handling using Laravel backend and Vue.js frontend.

TODO-LIST: TASK MANAGEMENT SYSTEM (LARAVEL & VUE)

- Created a task management application to organize daily activities efficiently.
- Implemented CRUD operations, task status tracking, and a user-friendly interface.
